

*DUNE is a Four Letter Word*, by Griselda Sprigg

Travel with the Reg & Griselda Sprigg and their children (Doug & Marg) across the north of South Australia and across the many sand dunes in the desert country of Australia.

An interesting journey that began with Griselda (a nurse in the UK) meeting Reg in UK and ends with Reg purchasing the then Arkaroola Station – which is now a wonderful Wilderness area of SA. Reg shared his passion of geology with fellow students – Sir Mark Oliphant and Sir Douglas Mawson.

A must read for anyone who has visited or intends visiting Arkaroola, or for anyone interested in the outback of Australia.
